

IV. Measurement of Business Lending

IVA. Originations in 2021

About This Section

In this section we ask quantitative questions about loan originations by your bank in calendar year 2021. In particular, we are interested in your bank's lending for business purposes. Unless otherwise specified, when answering these questions please use the "lending for business purposes" definition below, rather than standard regulatory definitions, to classify loans.

The questions your bank sees in this section depend on your answers to the Screeners section. Specifically, your responses to S1 (for banks of all sizes) and S2 (for banks with assets greater than \$1 billion) indicate that your bank's core data systems are systematically able to retrieve data by the relevant category.

IVB. Outstanding Call Report C&I Loan Balances

About This Section

In the following questions, we ask questions by loan size about your bank's outstanding Call Report C&I loan balances on December 31st, 2021. For these questions please use the [definition for C&I lending from pages 18 to 20 of Call Report Schedule RC-C](#).

The questions your bank sees in this section depend on your answers to the Screeners section. Specifically, if your bank's response to S3 (Call Report) indicates that your bank's core data systems are systematically able to retrieve data by the relevant category.

Regulatory Call Reports collect data on outstanding Commercial and Industrial (C&I) loan balances that were \$1 million or less at the time of origination. Commitments smaller than \$1 million are commonly used as a proxy for small business lending but many loans to small businesses are greater than \$1 million. In this section, we aim to measure the amount of lending that occurs through these larger loans.

Important Note:

If your bank had assets of less than \$1 billion in the third quarter of 2021, please answer question IVB.1a only.

If your bank had assets of \$1 billion or more in the third quarter of 2021, please skip question IVB.1a and go directly to question IVB.1b.

[Programmer's note: SKIP IVB.1a if respondent is in Strata 3, 4, 5, or 6 (banks with at least \$1B in assets)]
